

Experience the latest innovation in respirator fit testing with AEROFIT —

a cutting-edge quantitative CNC fit testing device engineered for precision and ease.

KEY FEATURES

- ✓ **N95 AND ELASTOMERIC FIT TESTING:** AeroFit accommodates all respirator users.
- ✓ **SIMPLE CONFIGURATION:** Set up and start testing quickly with user-friendly procedures like respirator selection and daily verifications.
- ✓ **INTERACTIVE BUILT-IN SCREEN:** Visual instructions and animations guide test subjects through the process effortlessly. No tablet or Bluetooth® required to fit test.
- ✓ **RAPID AND EFFICIENT TESTING:** AeroFit is compatible with the OSHA Fast Fit Protocol allowing you to fit test all N95 filtering facepiece respirators, half/full face respirators, and SCBA masks in 2 minutes and 30 seconds.

At Compliance Safety & Supply, we are dedicated to providing our customers with the best Industrial Hygiene and Safety equipment in the industry. Our team of Industrial Hygiene and Safety Professionals are here to assist and provide support with all of your equipment needs.
